Large Van Vehicle Graphics

We have composed some van design layouts to help you decide which **level of coverage** will work best for you and your vehicle.

Please let your **sales representative** know your preferred option and our design team will take it from there

Less is more?...

Sometimes it's nice to keep things simple,
less can really be more; especially if you have
a large fleet of vehicles and you wish to minimise
costs and reduce down time

we sign-write **vehicles...**

Perhaps... a little more coverage?

Stand out that little bit more with striking colour floods and recess in-fills. This makes your van feel branded rather than just stickers on your van. The perfect choice to get recognised

Take a look at that rear...

Studies have shown that the rear of a vehicle is seen over 3000 times in a day. Just think when you're in traffic everyone behind you has plenty of time to read your van. Using this space effectively with bold colours or images and your business strengths can be huge for your potential business.

Half Wraps

Part wraps in some cases can be more effective than full wraps.
The contrast between your vans paintwork and your
branded coloured wrap can really stand out
among the crowd

Full Vehicle Wrap

Sometimes, a standard white van just doesn't cut it. A full vehicle wrap is a great opportunity to maximise your brand awareness while also protecting your vehicles paintwork. This option is perfect for a leased vehicle or a vehicle you plan to sell on in the future.

Optional Extras

Some vehicles need to have more special requirements. Whether its rear chevrons for highway maintenance or that extra detail in wrapping colour coded bumpers or mirrors these optional extras are perfect to make your vehicle unique to you and your business.

Bonnet wrap

£255
+ VAT each

Sometimes you may wish to simply wrap your bonnet and include your logo. This is a creative way to be seen without breaking your budget.

Optional extras will be an additional cost on base prices

Bumpers

£250
+ VAT each

Most vans have grey plastic bumpers which can't be wrapped. Some however, are colour coded and can be wrapped to help the design where necessary.

Roof Wrap

£450
+ VAT each

Sometimes the smaller vans do benefit from having the roof wrapped to match the sides and rear. Why not add this on to complete the van.

Prismatic Grade Chevron kits

We're proud of the graphics we produce, and we're dedicated to helping you keep them looking immaculate for today and well into the future. Every vehicle graphics order with us comes standard with our **1 year defects product warranty**, please see all terms and conditions below to understand what is covered in your graphics warranty along with some helpful tips to help clean and preserve your graphics.

The warranty provided is to help you with any of the following defects that may occur; although most are very rare, there is the odd occasion where a material defect can occur. All of the items covered below must be noted and reported to us immediately in order for us to rectify and replace any areas containing a defect.

It is important to note, the warranty covers only defects in the materials used and is not cover for any accidental damage to your graphics.

Please see the below list highlighting areas covered and not covered under your 1 year defects warranty.

✔ **Whats Covered?**

(Of which has not been jetwashed)

- 1 - Peeling / lifting vinyl edges
- 2 - Laminate peeling or dis-colouring
- 3 - Major colour fading
- 4 - Creases in the vinyl or laminate

✘ **Whats not Covered?**

- 1 - Scratches / scuffs
- 2 - Accident Insurance repair damage
